MySQL exercise 1

Getting started:

In this exercise you will familiarize yourself with a given DB structure.

We require that for each of the questions you will do the following:

a. Write down the queries you run. They should be as simple as possible!

b. Describe in a comment the results you got.

1. Which databases are managed by your server?
2. Which tables compose the imdb database?
3. What information can you find in the "movies" table?
